

12th September, 2021 School reopened observing all COVID preventive cautionary measures

GREETINGS!

We, at OBHIZATRIK School, are delighted to share an update report of our activities and your sponsored children during the pandemic and post-pandemic time.

COVID preventive steps taken

-  Regular sanitizing and disinfecting facility
-  Free meals and snacks provided
-  Free medicines and checkups provided
-  Facemasks & pocket disinfectant provided
-  Monthly grocery bags & vegetable provision
-  Sick students could skip for 15 days with class follow-up

Education during COVID pandemic

Students received assignments and their performance was scored on the basis of that. Digital classrooms and tablets provided by Huawei, enabled teachers to take remote classes.

Monthly physical checkup

After COVID-19 restrictions were eased, we conducted a free health camp for our students before starting regular classes. Students received overall physical check-up and free vitamin supplements.

Clean classroom activity

Students were engaged in classroom cleaning activities. This after-school activity helps develop a sense of hygiene and cleanliness maintenance among students.

Digital classroom

Huawei Bangladesh sponsored digitizing multiple classrooms of OBHIZATRIK School's Mirpur campus. Items included laptops, tablets, smart TV and internet connectivity. Teachers of OBHIZATRIK School took multiple classes on Science and ICT using the digital setup in classrooms.

Extra-curricular activities

Students decorated their classrooms in order to celebrate World Children's Day 2021 held on 20th November.

Students took part in gardening activity and planted many trees such as decorative shrubs, flowering bushes and fruit trees.

One of the school campus wall was painted with a colorful mural. The students took part in the painting process.

As students started regular classes, they also engaged in after-school play sessions. Winter games such as badminton is one of the many favorite sports the students frequently play.

Students of grade 6 to 8 completed their first basic SRHR class where they learnt basic knowledge about adolescent period of human being. Afterwards they made different posters about the topic "What is Menstruation and steps to take during periods". As this discussion about period is still treated as a taboo topic in Bangladesh, the goal of this discussion is to remove the shame that is often associated with the topic. Students hung their posters in their respective classes so that everyone, irrespective of their genders, can be benefitted from the information.

Celebrating Sheikh Russel Day, 18th October, 2021

Cultural program during World Children's Day, 2021

Students of OBHIZATRIK School celebrated World Children's Day, 2021 on the 20th of November through a cultural festival. Students entertained guests by presenting poems, classical dance and an awareness play called "Say NO to Child Marriage!"

Library installation

OBHIZATRIK School set up a library for the use of students and teachers. Students helped in book sorting and books arrangement on the shelves. The books were donated by multiple sponsors of OBHIZATRIK School.

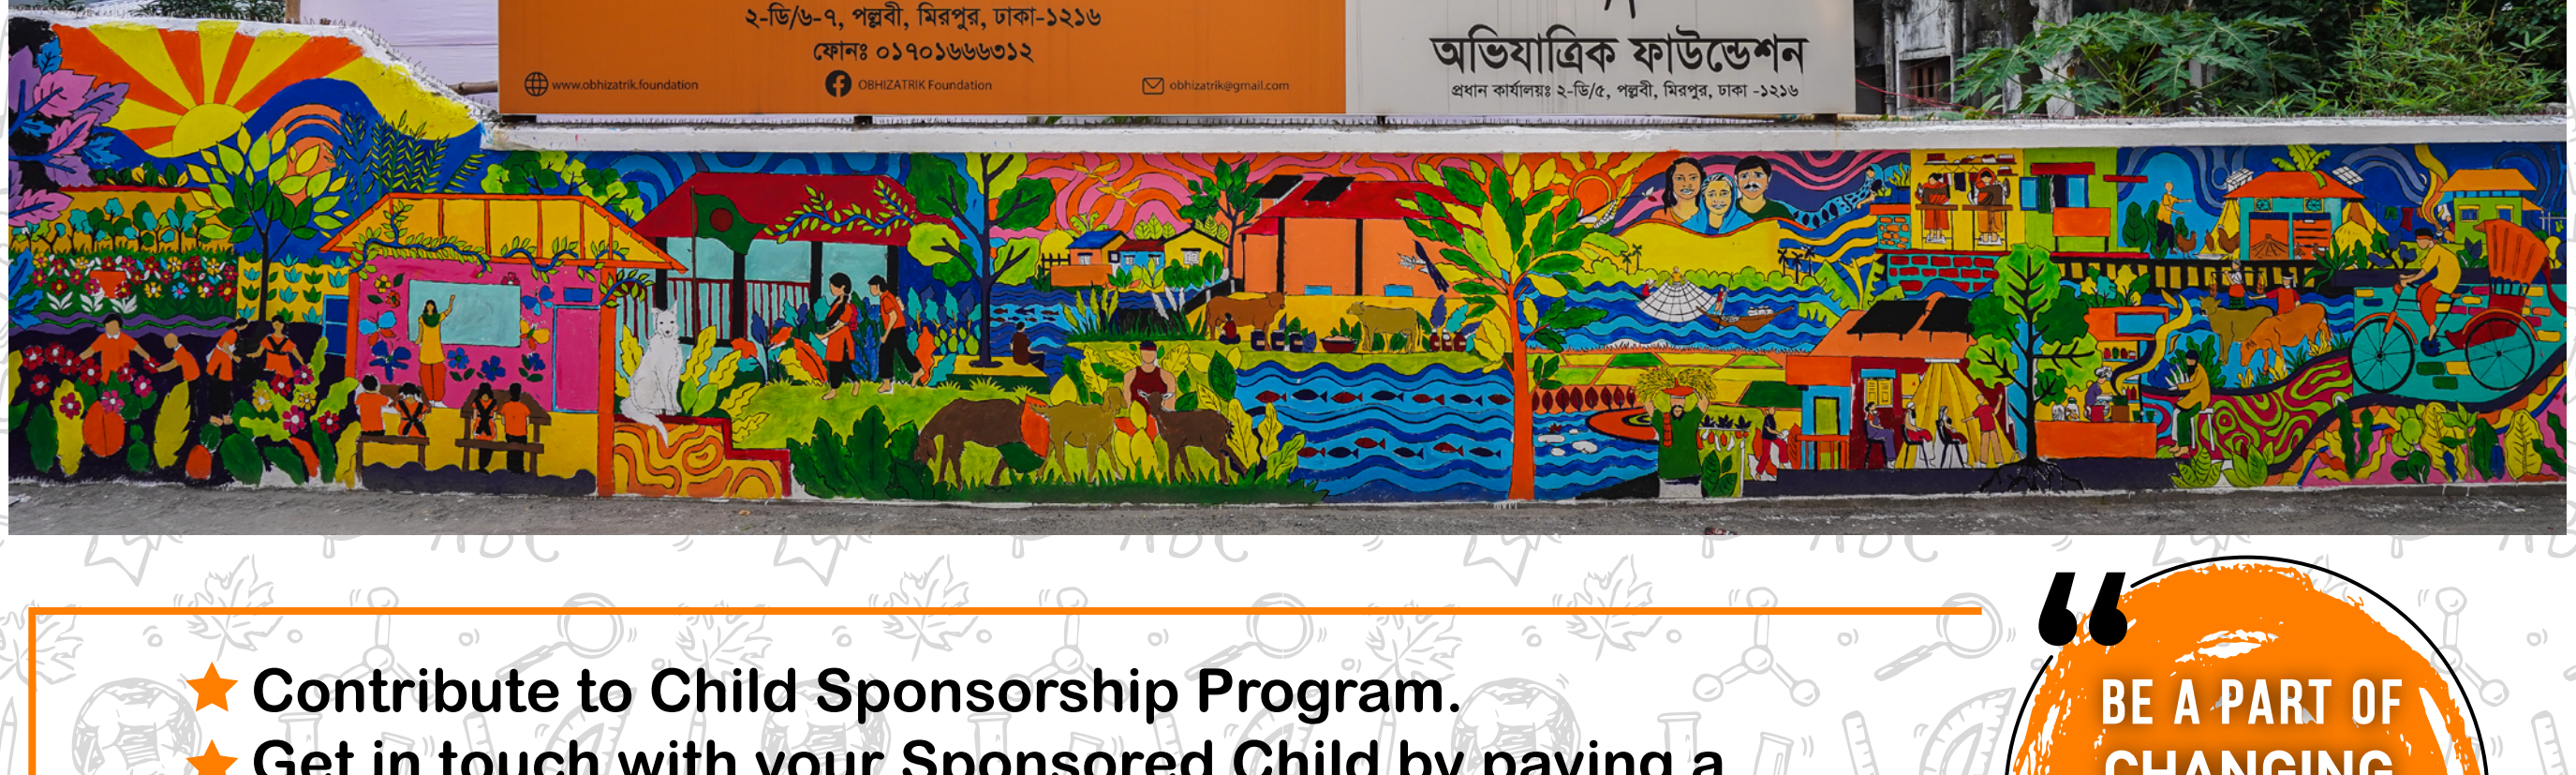

Monthly exam and scholarships of Merit

Students received scholarships after scoring good results in the monthly exams. Beside certificates of recognition, students were also given food bags containing grocery items such as rice, dal, flour, cooking oil, potato, onion, spices etc.

OTHER NEWS

OBHIZATRIK School is now taking admissions from Pre-education level to Grade 8. Many children are enrolling as new students in all three campuses of OBHIZATRIK School. We are expecting our student base to grow upto 800 next year.
