SHOKKHOM (সক্কম)

SHOKKHOM, a Bengali word that means being efficient or competent in a particular field of profession. In the Islamic community, Muslims are obliged to pay a percentage, annually under Islamic law on certain kinds of property and use it for charitable and religious purposes. But in Bangladesh, using Zakat's money, people tend to purchase clothing and distribute those to the poor. This results in momentary happiness in the destitute family but doesn't bring much development in their lifestyles. To make appropriate use of Zakat money, we initiated to create a Sustainable Livelihood project titled "SHOKKHOM".

This was first implemented in 2016 at a very small scale involving only two families to see its results. Considering its positive outcome, we held it at a larger scale in 2017-2020, helping 555 destitute families. This project involves raising Zakat money and using it to create an income-generating source for destitute families. We give the breadwinner of the destitute families, a chance to become an entrepreneur and thus improve their own living standards. The projects are being implemented in: Dhaka, Kustia, Barisal, Patuakhali, Khagrachair, Rangpur, Gazipur, and Burimara. Considering Shokkhom is an initiative that is based primarily on monitoring, we have particularly chosen these areas in Bangladesh as OBHIZATRIK's volunteer support in these areas is the strongest. The sole motto of this project is "To help the families to such an extent that they won't be needing help next year rather they will be capable of providing Zakat for other poorer families".

যাকাতের অর্থ দিয়ে দারিদ্র বিমোচন ক্ষুদ্রঋণ এর থেকে বেশি কার্যকর এই নিয়ে "Islam, Neoliberalism and Social Inequality in Bangladesh: A Social Policy Perspective" শীর্ষক একটি রিসার্চ বিট্রিশ জার্নালে প্রকাশিত হয়েছে।

এটি মূলত ঢাকা বিশ্ববিদ্যালয়ের প্রফেসর A. I. Mahbub Uddin Ahmed গত ২০১৭ সাল থেকে অভিত্রিক ফাউন্ডেশন এর যাকাতের অর্থ দ্বারা পরিচালিত জীবিকা প্রকল্প "সক্ষম" উপর ২ বছর ব্যাপি গবেষণা করে লিখেছেন।

এই রিসার্চটির সারাংশ (Abstract)-

The main objective of this chapter is to explore the relationship between zakat and reduction of social inequality in Bangladesh via historical development of Bangladesh social policy, social welfare regime and social welfare practices from 1201 to the present. It compares the neoliberal strategy of microfinance and Islamic strategy of zakat through Shokkhom Project data of a zakat-based Third Sector, Obhizatrick. It collects profiles of 82 beneficiaries, 49 males and 33 females, who received zakat between 2016 and 2017. Out of total 33 zakat recipients of Dhaka District, 13 case studies, 9 males and 4 females, were conducted for expediency. The chapter finds that Islamic welfare practice of zakat is more effective in the alleviation of poverty and ensuring social welfare than the neoliberal strategy of interest-based microfinance.
