### My Story

#### My Story

Assalamualaikum,

My name is Mohammad Alif. I am a student of Class Five at OBHIZATRIK School's Mirpur branch. My father works as a rickshaw puller, and my mother works as a helping hand. They both work very hard to support our family.

I want to study with dedication so that I can become well educated and continue my studies up to college. My dream is to become a doctor.

I enjoy learning new things at school. I love eating cake, and my favorite color is red. I am determined to work hard and build a better future for myself and my family.

Please keep me and my family in your prayers.

Thank you.
